

Quality online search tools to help you find information

Sweet Search: A search engine designed especially for school students

EPIC Databases: A database is a collection of information put together for a specific purpose. There are over 23 different databases to use for any research you can think of. For this assignment we are just going to be using one:

Encyclopaedia Britannica

To use these databases we need a username and password. Your teacher and Ms White have the school username and password which they will give you to keep safe.
